## Summary

---

Motivated front-end developer with experience in creating responsive and user-centric web applications. Proficient in C, Python, Java, HTML, CSS, and JavaScript. Familiar with data science techniques using Pandas for data manipulation and analysis. Developed a Gym Management Website that improved user engagement by 20%, showcasing strong problem-solving abilities and a commitment to intuitive design. Seeking a front-end developer role to apply and expand my technical skill set in web development.

## Education

---

### APJ Abdul Kalam Technological University

2022 – PRESENT

*B.Tech in Computer Science Engineering*

- CGPA: 9.32/10.0
- **Coursework:** Computer Architecture, Learning Algorithms, Computational Theory, Web Development
- Participated in coding clubs and university tech fests.

### Carmel CMI School Shornur

2020 – 2022

*Higher Secondary Education (HSE) - Science Stream*

## Projects

---

### Gym Management Website

- **Technologies:** HTML, CSS, JavaScript
- Designed and implemented a responsive web application to manage gym memberships and class schedules.
- Features: Membership management, real-time workout schedule tracking, class details.
- **Achievement:** Improved user engagement by 20% within three months through enhanced UI and streamlined membership signup process.

### Student Management System (B.Tech Lab Project)

- **Technologies:** HTML, CSS, JavaScript, SQL
- Developed a web-based student management system to handle student data, class assignments, and performance tracking.
- Features: Student registration, class scheduling, grades management, and report generation.
- Integrated SQL database to manage student records and academic data.

## Skills

---

C, Python, Java, HTML, CSS, JavaScript

*Programming Languages*

Pandas (Data Science), Bootstrap

*Frameworks Libraries*

Git, GitHub, Responsive Web Design, SQL, Version Control

*Tools Technologies*

## Certifications

---

- Meta Front-End Developer Professional Certificate (Ongoing) – Coursera
- Python for Data Science – IBM Cognitive Class
